100% Quality Site-Mixed Asphalt

Mix the right quantity of fresh asphalt whenever and wherever you need it.

Site-mixed asphalt provides you with exactly the right quantity of fresh asphalt, whenever and wherever you need it.

This makes it suitable for busy urban locations or remote areas with no access to asphalt plants.

**BENEFITS**

**Increased Efficiency**

Site-mixed asphalt avoids the need to collect material from plants, saving on time and increasing productivity. Waste can also be eliminated by loading the machine with the exact quantity required.

**Improved Quality**

Utilising freshly produced asphalt at the point of use enables consistent quality and allows it to be laid and compacted within the specified temperature ranges. This ensures full compaction, reducing the risk of air void related failures.

**Faster Heating**

The bagged formulation reduces heating time, for increased productivity and lower fuel usage. This enables the operative to rapidly achieve the correct temperature to lay and compact the asphalt.

**Ultimate Versatility**

Virgin asphalts are available in pre-packed bags and can also be supplied in bulk, enabling large repair works to be completed. The range includes traditional 6mm Dense and 10mm Close Graded surface courses and 20mm Dense binder course along with 10mm SMA and 35/14 HRA. Additional materials can be produced to meet specific customer requirements.

100% Hot Asphalt Recycling

Asphalt Recycling machines to suit any budget
We manufacture Hot asphalt recycling and virgin mix production machines
The equipment we build could financially benefit your company, allowing you to:

100% Recycle your virgin Asphalt Waste
100% Recycle your unused hotbox waste
100% Recycle of your Asphalt Millings/Planning’s
100% Eliminate your Asphalt Disposal problems and expense
100% Have access to Hot Asphalt 24 Hours a day 365 days a year
100% Control of your working day and night hours, and our weekend works

What Our Machines Do
The VEB Hot Asphalt Recyclers are built to recycle 100% RAP material, asphalt millings/planning’s, large asphalt chunks, waste hotbox material as well as produce virgin hot-mix asphalt, and specialty asphalt products.
